

EconLab Opportunity for 2024-25: RA for Gabriel Jardanovski

Title: Research Assistant

Openings: One

Project Description:

Department of Economics PhD candidate Gabriel Jardanovski is seeking an undergraduate research assistant to work on a project at the intersection of environmental and empirical macroeconomics. The project focuses on understanding the macroeconomic effects of carbon pricing initiatives.

Position Description:

The Research Assistant will be involved in various aspects of data handling, including downloading, cleaning, and organizing datasets. The role also includes preparing graphs and visualizations to support analysis and conducting preliminary literature reviews. Candidates should have a working knowledge of Stata and/or R and/or Python.

Application Requirements:

Interested applicants should email gabrielj@u.northwestern.edu with a copy of their (unofficial) transcript, resume, and a brief paragraph describing their interest in the position. Please don't hesitate to contact Gabriel directly if you have any questions about the position or the project.
