## **Econ Bowl Timeslots:**

<https://docs.google.com/spreadsheets/d/108vKlaLPLIq-tfcl2uRh3KVP36okWNGJZQNaJwsH6c/edit?usp=sharing>

**Power Round Questions:** *To be released Tuesday, April 6 8:00 am CDT*

Wilson Macro - [Link](#)

Wilson Micro - [Link](#)

Migrom Macro - [Link](#)

Milgrom Micro - [Link](#)

**Power Round Submission:** *The Power Round should be emailed to NET by the deadline of Thursday, April 8 11:59 pm CDT*

**Econ Bowl Results:** *To be released Saturday, April 10*

**Final Results:** *To be released Sunday, April 11 following the Closing Ceremony*

## **Contact:**

For questions before the event, questions during the Power Round, or all other general questions, please email [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com). We will be most responsive between the hours of 9 am - 7 pm CDT.

For urgent issues only, please call 312-433-9864 (US & Canada only, please). NET is a small team of student volunteers, so please be understanding!

For any other economics-related inquiries, direct correspondence to:

Jerome H. Powell  
Chairperson  
Board of Governors of the Federal Reserve System  
20th Street and Constitution Avenue N.W.  
Washington, DC 20551

# Introduction

Dear Coaches, Advisors, and Participants,

Welcome to the 2021 Northwestern Economics Tournament! We appreciate your interest in our event. While we regret not being able to host you on our campus this year, we hope to provide students with an atmosphere that's just as enriching and educational as it would be in-person.

Our Mission Statement: The purpose of NET is to give high school students opportunities to explore the field of economics before entering college. This organization aims to introduce high school students to economics in a welcoming environment through competitions and interactive speaker events. NET also encourages the participation of Northwestern students, who plan and organize the event.

To that end, we've made a few changes to NET this year to make it more inclusive. We recognize that not every school has an economics curriculum, and so we've split our tournament up into two divisions so that any student, regardless of previous economics knowledge, can experience the excitement of our event. We've also eliminated the cap for educational events and professor talks so that anyone can learn from and interact with our world-class faculty and graduate students.

Already, we're seeing the wider interest in the event that we hoped for. This year, we're proud to announce that we are a truly international tournament - with students from the UAE, South Korea, and Canada joining students from across the US for the competition.

Should you have any questions or need any additional information, please feel free to email the NET team at [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com).

We'd like to thank the passionate students who make NET so engaging every year, and the coaches and advisors who make this event possible. We look forward to seeing you in April, and may the best economist win!

Sincerely,  
The NET Team

# Before the Competition

Prior to the competition, teams should receive registration confirmation from NET about the final division they have been assigned to. They should confirm that contact information forms, media release forms, and any other information requested have been filled out and submitted to NET.

In the weeks leading up to the tournament, teams can prepare by checking out sample Power Round exams and Econ Bowl questions on our website. Solutions for the corresponding practice exams are also provided on the website. This should give teams a good idea of the level of difficulty and prior knowledge expected. Those assigned to the Milgrom Division are not expected to have taken all economics and calculus classes and exam questions will reflect a lighter difficulty level. Those assigned to the Wilson Division can expect to see concepts learned from their school curriculums relating to a full range of microeconomic, macroeconomic, and calculus principles.

Each team can expect two different competitive events: a written, asynchronous Power Round exam and a synchronous Econ Bowl round. The Power Round exam should be finished by the team with no outside help and submitted by the deadline set by NET, who will take time zone accommodations into account. The Econ Bowl round will occur over Zoom. All rules relating to the tournament structure, Power Round, Econ Bowl Round, curriculum breakdown, scoring, tiebreakers, and challenges are posted below. Rules may have changed slightly from previous years so please review them in detail even if you are a returning school.

Dress attire for the tournament is casual (no need to dress up!). Make sure you are available for your assigned time slots by familiarizing yourself with the schedule provided below. Please ensure your team has a stable Internet connection, an environment with minimal distractions, and pen/pencil and paper handy.

Webinar Zoom links for the Educational Events (the Opening & Closing Ceremonies, the Guest Speakers, and Undergrad Panel) will be posted in this document. Zoom links for the Econ Bowl will be emailed individually to teams for security purposes. If you face any technical issues connecting to the tournament and need to get in contact with us, please call or text at +1 (312) 433-9864 for emergency issues and email [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com) for non-emergency issues. Educational events are open to all students and advisors, and the Zoom link can be shared with them to attend from their remote location.

# Tournament Overview

## Zoom

NET 2021 will be held virtually. Please see below for more details on Zoom links, etiquette, and troubleshooting.

All times will be posted in the Evanston, IL local time, which is Central Daylight Time (CDT, or UTC-5).

## Zoom Information and Etiquette

- All synchronous events will be held using Zoom. Before the event, please make sure that Zoom is downloaded, all participants have a Zoom account, and all aspects of the program are running smoothly.
- **Do not publicize any NET Zoom links**, this includes, but is not limited to, forwarding links to students who are not registered or posting links on social media.
- **Do not make any recordings of any part of NET.**
- The Econ Bowl will be held during a 30-minute slot which will be chosen in advance. During your scheduled slot, please observe the following etiquette:
  - Arrive 5 minutes early and be prepared to wait in the Waiting Room to ensure that the Econ Bowl round can be completed during your time slot.
  - Students' Zoom names should match the names given for registration.
  - Keep your video and audio on for the entire duration of your Econ Bowl slot.
- The Educational Events, which include the Opening and Closing Ceremonies, will be in a Zoom webinar format, while the Econ Bowl will be held as a normal Zoom meeting.
- For the Econ Bowl, participants should be in a quiet environment with no distractions where talking is permissible
- Any teams found in violation of these guidelines may be banned from participating in future NET competitions.

## Troubleshooting

- Before the day of the tournament, teams should make sure that Zoom is working properly in order to ensure a smooth event.
- Here are a few tips:
  - Ensure that all students and advisors can easily access the Zoom links to the educational events and Econ Bowl slots.
  - Check on the strength and stability of your internet connection. It should be able to support your video and audio capabilities through Zoom.
  - Before your Econ Bowl slot, test your audio and video to make sure that they are working well.

- If you encounter any technical issues during any of the events, please get in contact with the NET team.
  - If you or one of your team members are disconnected during the Opening, Closing, or any of the Educational events, feel free to return to the event when possible.
  - If you or one of your team members are disconnected or experience a poor internet connection during your Econ Bowl slot, time will be paused until they reconnect. If there is a more severe issue, play will continue without that team member.

# Schedule and Webinar Zoom Links

## Tuesday 4/6 to Thursday 4/8

Teams will complete the Power Round asynchronously. The suggested time limit is 2 hours. The Power Round will be emailed to teams (advisors and all registered team members) on **Tuesday, April 6 8:00 am CDT** and should be submitted by **Thursday, April 8 11:59 pm CDT** by emailing your answers as a pdf to [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com)

## Friday 4/9

4:00-5:00pm - Opening Ceremony

- Featuring [NU Professor Joseph Ferrie](#).
  - Topic: The Past and Present in Economic Policy
  - **Joseph Ferrie** is an economic historian who uses micro-level longitudinal data to study economic mobility. Using data from census manuscripts, passenger ship records, tax lists, and city directories, he has compared mobility in Britain, the United States and France from the 1850s to the present. He is a research associate of the National Bureau of Economic Research.
- [Zoom Link](#) [do not share Zoom links]
- If the Zoom link above is not working, please try entering the meeting ID directly into the Zoom app:
  - Webinar ID: 966 1277 0117
  - password: 166072

5:00-7:00pm - [Econ Bowl Open Round Slots](#)

7:00-8:00pm - NU Undergraduate Student Panel

- A free-form discussion about what it's like to be a college student and study economics at NU! Come with any questions– college apps, classes, NU food, our favorite color, whatever. We're here to answer any and all questions you have!
- [Zoom Link](#) [do not share Zoom links]
  - Webinar ID: 924 2494 0691

## Saturday 4/10

11:00-11:30am - Guest Speaker [Udayan Vaiyda](#)

- Topic: Gale-Shapley Matching
- [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - Meeting ID: 924 1045 2963
  - Meeting password: 166072

11:30-1:30pm - [Econ Bowl Open Round Slots](#)

2:00-2:30pm - Guest Speaker [Santiago Camara](#)

- Topic: COVID and Monetary Policy
  - How has the virus affected interest rates and the money supply? Why is the housing market doing so well right now?
  - [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
    - Meeting ID: 993 6617 9555

3:00-4:00pm - [Econ Bowl Open Round Slots](#)

5:00pm - Schools notified of advancement to Econ Bowl Final Round

## Sunday 4/11

12:00-12:30pm - Guest Speaker [NU Professor Mar Reguant](#)

- Topic: Climate Policy
- **Mar Reguant's** research deals with the economics of energy, with an emphasis on electricity and the pollution associated with electricity generation.
- [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - Meeting ID: 991 6625 3091

1:00-1:30pm - FINAL Econ Bowl - Wilson Division

- **University High School** [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - Meeting ID: 922 3425 0981
- **Mounds View High School** [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - Meeting ID: 924 0486 1158
- **Collingwood School** [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - Meeting ID: 692 878 3512
- See information about rules and format below

2:30-3:00pm - FINAL Econ Bowl - Milgrom Division

- **Walter Peyton College Prep** [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - Meeting ID: 966 6104 4646

- **Dubai International Academy, Emirates Hills** [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - Meeting ID: 978 2771 7559
- See information about rules and format below

4:00-5:00pm - Closing Ceremony and Awards

- Featuring [NU Professor Mark Witte](#)
  - Topic: Covid and Public Finance
  - **Mark Witte's** research deals with applied questions in macroeconomics and public finance. His main interests are in consumption theory and topics in taxation. His teaching interests include macroeconomics, money and banking, public finance, and the economics of the environment and the extraction of natural resources. He has been voted onto the Associated Student Government honor roll numerous times in recognition of both his teaching and student advising. He has been honored with a Weinberg College of Arts and Sciences (WCAS) Distinguished Teaching Award, and a WCAS Distinguished Leader in the Undergraduate Community Award.
- The winners of the Power Round and Econ Bowl in each division will be announced here. Thank you to all students and advisors who participated in NET!
- [Zoom Link](#) [do not share Zoom links, IDs, or passwords]
  - 970 9902 9681

## Schedule

The Power Round will be completed between Tuesday 4/6 and Thursday 4/8

Refer to [Econ Bowl times](#) spreadsheet for your school's Econ Bowl Slot

	Friday, 4/9	Saturday, 4/10	Sunday, 4/11
11am CDT		Udayan Vaiyda Talk	
12pm		Econ Bowl Slots (30 min each)	Professor Reguant Talk
1pm		Econ Bowl Slots (30 min each)	<a href="#">FINAL Econ Bowl - Milgrom</a>
2pm		Santiago Camara Talk	<a href="#">2:30: FINAL Econ Bowl - Wilson</a>
3pm		Econ Bowl Slots (30 min each)	
4pm	<a href="#">Opening Ceremony featuring Professor Ferrie</a>	Econ Bowl Slots (30 min each)	<a href="#">Closing Ceremony and Awards featuring Professor Witte</a>
5pm	Econ Bowl Slots (30 min each)		
6pm	Econ Bowl Slots (30 min each)		
7pm CDT	Undergraduate Panel		

# Competition Rules

## Tournament Eligibility

- Student competitors must be enrolled in a high school in one of grades 9-12 for the current academic school year - or if home-schooled, be of high school standing.
- Each team must consist of 4 students (with one alternate), and each school may send only one team.
- All team members must be from the same high school.
- Each team must be accompanied by an advisor who is a faculty member at the team's high school OR a parent/guardian of one of the team members.
- 20 teams will be allowed to register for the tournament. There will be a waitlist for additional teams that can enter the tournament if any already-entered teams cancel their registration.
- Each team will be assigned to a tournament track based on their preference and experience indicated on the registration form:
  - The Milgrom Division is designed for teams who have little to no prior experience in studying economics or calculus.
  - The Wilson Division is designed for teams who have more experience in studying economics and calculus.
- The NET Team has tried to incorporate each team's preferences as best as possible; however in order to ensure a relatively even distribution between the Milgrom and Wilson Divisions, in some cases we have reassigned teams based on the calculus and economics experience indicated.

## Tournament Structure

- The tournament consists of a team-based asynchronous written Power Round and the synchronous Economics Bowl.
- The Power Round is a team-based free-response written exam.
- The Economics Bowl will consist of a preliminary, team round and a final round.
  - Each team will indicate their time preference for the 30-minute Open Round
  - The top three scoring teams in each division will advance to the Final Round, held on Sunday, April 11; the format will be identical to the Open Round.
  - Each team should plan to be available for the Sunday afternoon final round slots in case they advance to the finals. Refer to the [Econ Bowl timeslots](#).

## Power Round Rules

### Structure

- The Power Round is a written, team-based exam. It contains 6 questions, 3 from macroeconomics and 3 from microeconomics.
- The Power Round this year will be completed asynchronously and has been altered to allow for maximum flexibility. You will have the opportunity to complete the Power Round at any point between the start and end time listed below. There will be two parts, each composed of three written questions. The submission window is:
  - Start time: **Tuesday, April 6 8:00 am CDT.**
  - End time: **Thursday, April 8 11:59 pm CDT**
- The Power Round will be emailed to advisors and participants at the start time listed above. For fairness, a **maximum of four students from each team are allowed to contribute to the Power Round.** This means that, generally, alternates will not be permitted to assist the rest of the team. The alternate can only work on the Power Round if and only if one of the other competing students drops out *before* the Power Round begins, i.e., the Power Round represents the work of a *maximum* of four students
- Answers to the Power Round should be emailed to [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com) in pdf form *before* the end time listed above.
- Resubmissions are allowed. We recommend submitting as soon as it is completed to avoid any last-minute technical issues. The most recent, complete submission will be graded. If you would like to rework a single question, please resubmit *the entire exam* for ease with grading.
- There is no enforced time limit for the Power Round (other than the due date), but **we strongly recommend that students spend no more than 2 hours on the exam.**
- Teams are free to use the exam booklet as scrap paper, but teams will write their answers on a separate sheet of paper.
- The Power Round is meant to be a challenging exam. Teams are not required, nor expected, to be able to answer all of the questions on the exam.

### Submission Guidelines

- The answers to the Power Round should be scanned and emailed as a pdf to [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com). You can use an app like Adobe Scan to take pictures from your phone and convert into pdf.
- The answers to the Power Round should be scanned and emailed as a pdf to [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com). You can use an app like Adobe Scan to take pictures from your phone and convert into pdf.
- Start each question on a separate page and clearly label the question being answered at the top of each page.

- On the first page, please label your school name and team members. Label subsequent pages with the team name and question that is being answered.
- Schools should submit two separate pdfs: one for their answers to the microeconomics test, and one for their answers to the macroeconomics test.
- **Please name each file submission as:**
  - Micro test: SchoolName\_Micro\_PowerRoundNET2021.pdf
  - Macro test: SchoolName\_Macro\_PowerRoundNET2021.pdf
- **When emailing your final answers to NET:**
  - Recipient: nuecontournament@gmail.com
  - Subject: School Name Power Round Submission
- The PDF file format is preferred, but other image formats will be acceptable.
- If the answer is illegible (e.g. bad image quality, messy handwriting), or if we cannot match the answer to a question (e.g. answer pdfs should be uploaded to the correct question), we cannot grade it.
- You will receive a confirmation email once your school's Power Round has been submitted (or if a resubmission has been sent).
- **Submissions after the deadline will not be accepted.** Except in the case of significant, longstanding technical difficulties, we cannot accept late work. We recommend submitting your work at least 6 hours before the deadline to avoid the possibility of last minute technical mishaps.

### Scoring and Other Guidelines

- After submission, the NET team will grade each Power Round and notify each school of their score during the Closing Ceremony.
- Each question will be worth a specific number of points, and point values will be denoted on the exam. Incorrect or unanswered questions receive zero points, and there is no penalty for guessing. Partial credit may be awarded.
- Questions are not weighted equally, but the point distribution between microeconomics and macroeconomics is the same (i.e. 50:50 split).
- **No outside sources, online or otherwise, may be used.** Calculators are permitted but are not necessary and not recommended. Advisors may not be consulted during the course of the Power Round. Do not consult any textbook, notes, Internet source, extraterrestrial AI, other teams, your aunt with a Nobel Prize in Economics, or so on. If we discover any violations of this rule, NET will disqualify the team's score.
- It's important to remember that NET is just for fun. You aren't graded on anything and there's no reason to cheat. (We don't report your scores to the NU admissions office! Honestly, I don't even know how we'd do that) We've worked hard to bring you an engaging, challenging experience and would appreciate it if you showed us the same respect. In other words: Please don't cheat, it'll make us sad.

- If you have any questions, concerns or technical challenges with the Power Round, please email [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com) for assistance.

## Econ Bowl Rules

### Demo Video for NET21 Econ Bowl Rules - [Link](#)

- The rules and format have been slightly modified for the virtual format of the 2021 competition. Please review the changes below. Sample questions are available on the NET website.

### Structure and Eligibility

- Registered teams will have their Econ Bowl time slots confirmed by the start of the competition.
- All players, alternates, and advisors should ensure that they have a functioning Zoom account and a stable Internet connection.
- A team includes four players and an optional alternate. Only four students shall compete at a time. The alternate may join the Zoom meeting but cannot communicate with the four competing students. In the event that one player disconnects, the remaining members of the team should finish the current question, then NET will pause the clock. If a substitution is necessary, the remaining players should indicate to the moderator that they are substituting a player, after which the substituting player joins the competing students. If only three students are able to connect, the team is still eligible to compete.
- The two teams in each division with the top scores in the Open Round will advance to the Final Round. The team in each division with the top score in the Final Round will be declared the winner. Teams will be notified whether they advance to the Final Round by 5pm Saturday CDT.

### Format

- The competing team members, the advisor, and the team alternate (if applicable) will join their scheduled Zoom meeting with the NET moderators. Teams will not compete head-to-head, but teams' scores will be compared to determine advancement into the Final Round and the overall winner.
- **Please join your Econ Bowl Zoom meeting five minutes early.** Ensure your name on Zoom matches the name used in registration. You may be placed in a waiting room before entry.
- The preliminary round will consist of 5 sets of questions, with 5 questions per set, for a total of 25 questions.
- Each set is ordered by ascending difficulty and length.
- There will be a time limit of 2 minutes for each set. Thus the overall approximate time per round will be 10 minutes of questions and 20 minutes for introductions, questions, and a practice round, along with any possible technical difficulties.
- All questions will be in Short Answer format.
- Each team should have their video and audio on for the duration of the Econ Bowl slot. Teams will discuss their answer through the Zoom call. We encourage each member to have their own Zoom screen, but this is not a requirement.

## **Moderation**

- After a brief introduction to NET and a quick clarification of the rules by the moderator, we will do a practice set to adjust to the new format.
- Each question will be displayed on a shared screen so all team members can read it.
- The moderator will read the question out loud.
- At any point while the moderator is reading, a team member can say “INTERRUPT” to pause the reading. Teams can then discuss and give answers.
- To answer the question, any competing team member must say “FINAL ANSWER” then state their answer. We recommend that teams designate one person (for example, the team captain) to deliver the final answer. However, any of the four competing team members may answer.
- Technical difficulties aside, questions will not be re-read. Once a team member says "INTERRUPT," the moderator will pause reading. Once a team member says "FINAL ANSWER" the question will not be re-read.
- If a question is answered correctly, the team will receive one point.
- If a question is answered incorrectly, the team will receive no points.
- When a question is answered, the moderator will immediately display and begin to read to the next question.
- Teams who are still reading this should email NET with a picture of their favorite economist for brownie points.
- This will continue until all 5 questions in the set have been answered, or until the 2 minute time limit is reached, whichever happens first.
- When one set is completed, we will continue to the next. Each set is timed individually; extra time at the end of one set does not carry over.

## **Acceptable Answer Formats**

- For short answer questions, equivalent wordings will be accepted. Numerical answers must be given in exact and simplest form.
- Team members must say “FINAL ANSWER” before stating the answer.
- If a team member states their final answer without saying “FINAL ANSWER,” the answer does not count. There is no penalty, but it will waste time.

## **Scoring**

- Questions
  - Each question will have the same point value, there are no fractional point values.
  - Incorrect answers receive 0 points.
  - If a team member states their final answer without saying “FINAL ANSWER,” the answer is not accepted. There is no penalty, but it will waste time.
  - Under no circumstances will points be subtracted from a team’s score total.
- The two teams with the highest scores in each division will proceed to the final round.

### **Tiebreakers**

- Teams' Power Round scores will be used to determine ties. In the event that exactly two teams in a division are tied in their Open Round score, both teams will advance to the Final Round. If more than two teams are tied, teams' Power Round scores will be used to determine which team(s) advances to the Final Round.
- In the highly unlikely event that teams are tied in their Final Round score AND their Power Round score, a runoff set of questions (with the same rules and timing) will be administered to both teams shortly following the Final Round.

### **Challenges**

- There are two types of challenges: rules and content challenges. Only the four competing players in a round may issue challenges. Advisors and non-competing alternates may NOT issue challenges.
- Rules challenges relate to scoring or the application of the rules (e.g. scoring). Judgement calls by moderators CANNOT be challenged.
- Content challenges relate to the validity of round questions or acceptable answers.
- Teams should state their challenge to a specific question before the next question is read by saying "CHALLENGE." Once a team member challenges a question, the round time is stopped. Once a new question is read, teams may no longer challenge previous questions.
- Teams are allowed to issue at most two unsuccessful content challenges per round.

### **Troubleshooting Protocol**

- If an answer is accidentally revealed before the team provides its answer:
  - The round will proceed with the current set.
  - A corresponding backup question of similar style, length, and difficulty will be selected by the moderator.
- If a participant disconnects:
  - The timer will not be stopped and the current question will be finished. After the current question is completed, the timer will pause.
  - If time must be paused for two questions in a set, this set will be nullified and a backup set will be given.

### **Supplementary Rules**

- The structure of the Econ Bowl is subject to change at the discretion of NET organizers if deemed necessary for the successful and fair execution of the tournament.
- No cell phones or internet-accessing devices may be used by players, coaches, substitutes, or spectators once the match has started, with the exception of the device used to participate in the Zoom call.
- If the moderators see any unauthorized electronic device being used during the match, the person possessing the device must leave the Zoom call for the rest of the match.
- Any technical malfunctions (i.e. Zoom crashing; internet connection failing) will be dealt with on an individual basis.

- If a participant loses connection during a question, remaining team members will finish the current question, then time will pause. We will then resolve the issue and resume when we can.
- The same procedure follows if a NET team member is disconnected. If all NET members in the call disconnect, call the NET phone hotline (only if inside the US or Canada) or email us at [nuecontournament@gmail.com](mailto:nuecontournament@gmail.com) (if international)
- We will do our best to accommodate technical issues, but players with more severe problems may be asked to sit out of the remainder of the round.
- Any adjustments to the timing, for example, due to connection issues, will be at the discretion of a round's moderators.

## **Awards**

- In total, there will be four prizes: \$100 given to the winner of the Power Round and the Econ Bowl in each division
- Power Round: top overall highest-scoring team in *each* division:
  - Certificate of recognition signed by the Northwestern Economics Department Chair
  - \$100 prize (given as an Amazon gift card)
- Econ Bowl: Overall champion team in *each* division:
  - Certificate of recognition signed by the Northwestern Economics Department Chair
  - \$100 prize (given as an Amazon gift card)

## After the Competition

The winners of the Power Round and Econ Bowl in each division will be announced at the Closing Ceremony. Prizes (in the form of an Amazon gift card) will be sent to the advisors of winning teams via email after the competition.

Surveys will be sent to all students and advisors asking for feedback. Please fill these out to help us improve NET for future years!

Following the tournament, Power Round and Econ Bowl rankings will be posted on the NET website.
